2 Must - Know Language Rules قواعد يجب معرفتها - كن جاهز لأي سؤال

القواعد اللغوية الأساسية موضع الامتحان [كما وردت في كتاب الطالب]

1 Phrasal verbs الأفعال الاصطلاحية

A phrasal verb is a verb that is followed by a preposition. The preposition changes the meaning of the verb.

• الأفعال الاصطلاحية هي عبارة عن فعل متبوع بحرف جر. يغير حرف الجر معنى الفعل.

ex. - She **saw** the picture in the book. → [see = notice with your eyes يرى]

- She **saw off** her husband before he traveled. → [saw off = said goodbye يودع]

1 When phrasal verbs have an [object], this affects the word order.

عندما يوجد [مفعول] في الجملة التي بها الأفعال الاصطلاحية فإن ذلك يؤثر على ترتيب الجملة.

Note

في حالة وجود مفعول في الجملة فإنه يمكن أن يأتي بعد الفعل وقبل حرف الجر أو بعد الفعل الاصطلاحية.

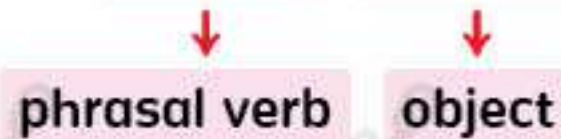

ex. • My mom **filled** **the form** **in** before we left.

- You can say :

يمكن أن تقول :

• My mom **filled in** **the form** before we left.

2 When the [object] is a [pronoun], we follow this word order :

عندما يكون [المفعول] [ضمير] ، نتبع الترتيب الآتي فقط :

Subject + verb + object pronoun + preposition + باقي الجملة

• يجب ان يأتي ضمير المفعول بعد الفعل وقبل حرف الجر.

2 Present simple active and passive

المضارع البسيط في صيغة المبني للمعلوم والمجهول

• Active :

- صيغة المبني للمعلوم [الفاعل معلوم] :

In active sentences, we focus on the doer of the action [the person doing the action].

في جمل صيغة المبني للمعلوم نركز على الفاعل [الشخص القائم بالفعل].

- You study science at school and university.

↓
Subject / Doer فاعل

• Passive :

- صيغة المبني للمجهول :

In passive sentences, we focus on the object [the person / thing receiving the action].

في جمل صيغة المبني للمجهول، نركز على المفعول [الشخص / الشيء] الذي يقع عليه الفعل.

كيفية تكوين صيغة المبني للمجهول How to form the passive

1. Start the sentence with the object.

- ابدأ الجملة
بالمفعول.

2. Use verb [to be] according to the new subject in the same tense followed by the past participle of the main verb.

- استخدم الفعل يكون [to be] تبعًا للفاعل
الجديد في نفس زمن الجملة يليه التصريف
الثالث من الفعل الرئيسي للجملة.

3. The doer can be included in the sentence, using by, or it can be left out.

- يمكن ذكر الفاعل في الجملة
بعد كلمة [by] أو حذفه.

1 Second conditional [If] الحالة الشرطية الثانية

► Usage : الاستخدام

We use the second conditional to talk about a situation that is imaginary or unlikely to happen.

نستخدم الحالة الشرطية الثانية لنتحدث عن موقف تخيلي أو من غير المحتمل أن يحدث.

► Formation : التكوين

Note :

would = ['d] would not = wouldn't

- When the "if" clause is second, we don't use a comma.

• إذا كانت جملة "if" الشرطية هي الجملة الثانية فإننا لا نضع فاصلة ",".

"Ahmad Ibn Majid"

Ahmad Ibn Majid lived hundreds of years ago. He was born in what is now Oman. As a child, he was fascinated by the sea. He loved to listen to stories about sailing from his father and grandfather, who were great sailors. Ibn Majid was a very intelligent man and studied a lot. He learned languages, and learned about math, geography, and astronomy. As he got older, Ibn Majid became known as a master navigator. He wrote many books describing what he knew.

Subject : Skills I learned from my trip

Dear Sara,

I hope you are fine. I went to an amazing trip. I went to the Amazon because I wanted to learn more about what humans are doing to the environment. I learned how to canoe. I also learned how to take better photos. My biggest challenge was that it was often too hot to sleep. Then I went to the Himalayas because I have always been interested in that part of the world. I learned how to cook outside. I also learned how to put up a tent that was big enough for four people.

"A famous adventurer"

Alyssa Azar is an amazing young woman, and one of Australia's most

ambitious adventurers. She's the youngest Australian to climb Mount Everest. Alyssa trained hard, then she bought the correct equipment for climbing Everest. However, it was not very easy to climb the world's highest mountain. At the age of 19, she made it to the top of Everest. She has written a book about her adventures, called The Girl Who Climbed Everest. In the book, she describes the hard work that helped her achieve her dream.

"Omar Hegazy"

Omar Hegazy is a very interesting man who is a world-record-holding athlete. He shows that when you work hard, you can achieve amazing things. At the age of 25, Omar's life was going well. One day, he was traveling along the road on his motorbike when he had an accident. He had to learn to use a crutch, and then a wheelchair. Omar learned about two important athletes who are also disabled. Omar trained hard, and in 2022, he could swim underwater for a distance of 56.48 meters! Today, Omar Hegazy is a very happy man, and gives talks to inspire others.

"An amazing adventure"

Last week, I went to the desert with my friends. We walked together through the desert road. We put up a tent. It was very hot in the desert. We cooked lunch together. After a while, we came to an

oasis, and saw a beautiful deer with big eyes. When we got closer, the deer ran away, and there was a noise in the leaves. We saw that the deer was back with her baby. It was a fantastic scene. We took photos and had fun.

Unit 6

"Pandas"

We all love pandas. Sadly, some years ago, giant pandas were put in danger. Much of their habitat was destroyed to build new homes. Their habitat wasn't protected. Pandas only eat bamboo, which was cut down for the houses. Many people were very worried, so the pandas were put into special areas, where they were protected. They were given as much bamboo as they could eat. Now there are almost 2,000! When we try hard, we can help animals live long, healthy lives.

"The life of a journalist"

I'm an international journalist, and I live in Egypt. I work for an English newspaper. I studied journalism at university. I get up early and have breakfast. Then I call my editor to see what stories I need to write about. I write my news reports from home, but I can get anywhere in the city if there's a story there. One of my articles was chosen to be one of the main stories. My job is very exciting, and there's something new every day.

"A short story I read"

I read a very nice story. It was about farmer Sameh and his family. Farmer Sameh had a very happy life. He lived on a farm with his wife, Amina, and his children, Monir and Menna. They didn't

have a lot of land, but they had enough to grow food to eat and a little to sell at the market. The family had an old barn where they kept the sheep. That year, summer was very hot. One day, the barn started burning. After the barn burned down, they all sat and drank water. Sameh and his family worked hard through the summer. They built a new, bigger barn with bricks. It was big enough for all their sheep. Now, they have a fantastic barn.

"The school sports day"

Our school sports day was last Thursday, 13 June. It was awesome! Mr Kamal's class decorated the sports area - it looked great! The older children in school planned all the races. Many girls and boys took part, and there were many different things to see. Lots of people watched the exciting football, volleyball, and basketball games. The races, such as the 100-meter running, long jump, and high jump were popular, too.

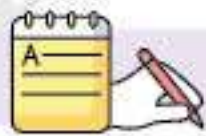

"My school concert"

Last Friday, we had a concert at my school. It was amazing. Mr Ahmed decorated the hall with flowers. Everyone was very excited. There are 24 students in the orchestra. They play lots of different musical instruments including the violin, flute, guitar, and piano. The choir has over 30 students from different years. The orchestra played classical music. It was fantastic. The orchestra played and the choir sang. It was an awesome evening.

"A garage sale at my school"

Every year, we have a garage sale at our school. Volunteers from our school

all bring in old items like clothes, books, toys, or kitchen equipment. These items are old, but they are still in good shape and can be used again. These items are sold to anyone who would like to buy them. The money we collect is used to help children who are in hospitals. We also buy some new toys and take them to the children with our teachers.

Unit 7

"Filter straws"

We need to protect our planet. Filter straws are one of the inventions that we use to protect the environment. When we think of drinking straws, we usually think of drinking something tasty. However, one type of straw solves problems caused by dirty water. A filter straw removes dangerous bacteria from water. The bacteria can't pass through the straw. This makes the water safe to drink. In this way, filter straws have prevented diseases in many countries, so fewer people are getting sick.

Dear Ahmed,

I want to tell you about a special invention. It's a special camera. The camera can take photos under the water. It's called Fish Camera because it looks like a real angelfish. It doesn't scare the fish and other sea life. It feels like a fish because it's covered in smooth, waterproof material. And it sounds like a fish because it makes noises like them. It clicks and pops! Fish Camera can

show scientists how healthy the coral reefs are.

"A solution to the problem of plastic pollution"

Plastic can get into the ocean and create lots of problems. It can have a very bad effect on sea life. Some animals think the plastic is food, and so they eat it and become sick. Some animals get trapped in the plastic and are hurt. The Ocean Net is a special invention that catches trash in the sea. Firstly, it helps sea life. It stops plastic from getting into the sea. Secondly, it's good for the environment. It catches plastic objects : drink bottles, chip bags, and plastic straws.

"My trip to the science museum"

I went with my friends on a school trip to the science museum with our teacher. Our guide showed us around the museum. There was an exhibition at the museum about driverless cars. We saw a car that in the future would fly and swim. The driverless cars could go anywhere, so they would go into space. These cars don't need a driver to control them. We went to the planetarium. We saw a dark room, filled with stars.

"How to keep our environment clean"

We can do many things to keep our environment clean. We should recycle plastic. Plastic damages the environment. Plastic can make people and animals sick. If there wasn't so much plastic pollution, the sea and beaches would be safer for the sea animals and for us.

Plastic is dangerous so we need to have a solution. There are also many inventions that can help us keep our environment clean.

The Ocean Net is a special invention that catches trash in the sea. It catches plastic objects : drink bottles, chip bags, and plastic straws. These plastic objects can then be sorted and recycled.

"Working in a team"

There are lots of times when you can work in a team at school and in clubs, or in activities out of school. It's good to be independent and to focus on your work. However, if you work in a team, you might find that it's fun to take part. When you take part in a new sport, for example, you can easily make new friends. Think with your friends to have new ideas. Some people like to talk a lot. When you work in a team, you should learn to listen. A team works best when everybody takes turns to speak, and takes time to listen to each other.

"Personal statement"

by Nada Youssef, aged 12

Introduction

My name is Nada and I'm in Grade 6. I work hard at my school. I enjoy working in a team and I enjoy taking part in group activities.

My favorite subjects

I enjoy studying English and math. I love math because I like numbers. I also like PE.

My interests

I go to English club after school. We do a lot of activities to learn English in a fun way.

My future goals

Next year, I'd like to write articles for the school newspaper in English. When I'm older, I'd like to work as an English teacher.

"An adventure"

When I was nine, it was my first desert adventure with Scouts. I remember that my bag was very heavy. I packed a lot of clothes, food and snacks. My friends laughed at me but they helped me to make it lighter. I learned that we need a few important things to pack. I really enjoyed my adventure and learned a lot of skills.

"A trip to the desert"

Last year, I went on a trip to the desert with my family. We like to go to different places to camp. I packed my backpack. My brother took his compass to know the directions. We traveled by car. We put up our tents. We chose the desert to learn more about the wildlife there. We studied the insects and animals there. We took a lot of pictures

and do research about them. We made a video to post it on social media to teach people about the life in the desert.

"An amazing adventure"

Adventures are amazing experiences to learn new skills and having fun. I like going in adventures. Last month, I went on an adventure with the school. We went camping in an oasis in the desert. We put up our tents and cooked our meal on fire. We used a telescope to watch the stars. That was amazing. I learned how to use the compass. There were challenges there but we learned how to solve them.

The electricity generated can be stored in batteries for later use.

3 Read the following text and answer the questions: (5Ms)

Hi! I'm Lina. Yesterday, I learned about deforestation and how it affects our planet. Trees are vital because they clean the air, provide homes for animals, and keep the soil healthy. But many forests are being cut down for wood, farming, or buildings. This destroys animal habitats and increases air pollution. Deforestation also makes climate change worse because trees absorb harmful gases. Luckily, we can help! Planting new trees, recycling paper, and supporting forest protection projects are simple ways to make a difference. Let's teach others about this problem and work together to save our forests. Every small action counts!

Rangers use special collars to track the rhinos. The collars send signals every hour. If a rhino leaves the safe area, rangers quickly find it. Visitors must stay in cars to protect the rhinos.”

Test (3) on Unit (7)

“Imagine a path that can do something amazing! These paths are made with special materials that can collect energy from the sun during the day. So, even when the sun goes down, these paths can glow, making it safer for people to walk and cycle at night. Because they use the sun’s energy, they don’t need electricity, which is good for our planet. These glowing paths help people see where they are going in the dark. They encourage more people to walk and ride their bikes.”

Test (4) on Unit (8)

“Lina had to create a poster about healthy eating for her school’s science fair. She worked hard but couldn’t fit all the information neatly. Her friend suggested using smaller drawings, and her teacher told her to organize the facts with bullet points. Lina’s mom reminded her to rest when frustrated. After making these changes, Lina finished her poster, and it won first prize! Her classmates loved the clear layout and colorful pictures.”

 Hi Sam,
 Hope you're doing well! I wanted to tell you about a new hobby I've picked up. I started learning to play the guitar about a month ago. It's been really interesting! At first, it was a bit challenging to learn the chords, but I'm starting to get the hang of it. I really enjoy the feeling of playing a song, even a simple one. It's a great

way to relax after school. Maybe I can play something for you next time we meet!

Best,
 Hany

1- Famous navigators

Ahmad Ibn Majid lived hundreds of years ago. He was born in 1432, in what is now Oman. As a child, he was fascinated by the sea. He loved to listen to stories about sailing from his father and grandfather, who were great sailors. They also had their own ships. Ibn Majid was a very intelligent man and studied a lot. He learned languages, and learned about math, geography, and astronomy. As he got older, Ibn Majid became known as a master navigator. Over the years, Ibn Majid wrote 38 books describing what he knew. Some of his books had information about routes to different places, and some described the history of sailing.

2- Omar Hegazy

Omar Hegazy is a very interesting man who is a world-record-holding athlete. At the age of 25, Omar's life was going well. He had a good job as a banker in the Sinai Peninsula, and he was very active. He enjoyed sports, including rock climbing, snorkeling, and keeping fit. One day, he was traveling along the road on his motorbike when he had an accident. The doctors had to remove part of his leg. Omar had to learn to use a crutch, and then a wheelchair.

Omar trained hard, and in 2022, he could swim underwater for a distance of 56.48 meters! Today, Omar Hegazy is a very happy man, and gives talks to inspire others.

3- The life of astronauts

To be an astronaut, you need to work hard. First, you should study science at school and university. After that, you need to do a difficult, two-year astronaut course. In the training course, astronauts are taught how to fix spaceships. They are shown how to give first aid. Astronauts need to be physically strong. On the spaceship, the sleeping bags are attached to a wall so they don't float. Astronauts wash themselves with cleaning wipes because there's no shower or bath. Astronauts run in a special area of the space ship to keep fit.

I'm an international journalist, and I live in Egypt, I work for an English newspaper. I really love the English language, so I decided to focus on it at school. After that, I studied journalism at university. I think a journalist needs to be good at two things, Firstly, they need to communicate well to get a good story . Secondly, they have to write well and quickly, using correct spelling and grammar.

I love my job . It's fun, and every day is different because we don't know what news will come in .

3-Animal News

Cheetahs, the fastest animals in the world, have returned to India. They lived in India but then slowly disappeared . However, much later, eight of them were brought to a big park in India , The Indian people are very pleased to have these animals back in their country. The cheetahs now live in a safe area, where they are fed every day. They aren't watched all the time, but they are tracked so they don't get lost, Some people are a little worried . This is because when the cheetahs move around more, they will meet other big cats, for example, leopards.

**5- Read the following text and answer the questions:****(1)**

I'm Nermeen. I love learning about inventions that help the planet. Edible cutlery is a great and useful invention. Having takeaway food with friends and family is great. However, plastic knives, forks, and spoons are bad for the planet. We usually use plastic cutlery once, then throw it away. Plastic doesn't decompose, so it stays in the ground for a long time. Some plastic can then get into the ocean. Lots of people want to find a better idea, and cutlery that you can eat is becoming popular. This can be made with special rice, or flour, and some edible cutlery comes in different flavors, too!

" Ancient Egyptians' inventions "

The Ancient Egyptians were one of the first groups of people to use a metal plow. A plow was used to dig and turn the soil. Later, they used animals to pull this plow and this made plowing the land easier. Ancient Egyptians wanted to keep clean. Clean teeth were important to them, so they invented a type of toothpaste. The Ancient Egyptians mixed salt, flowers, mint, and pepper into a paste. Ancient Egyptian toothpaste was as good as modern toothpaste!

" Plastic pollution problem "

We use plastic in our everyday lives: at home, at school, and at work. Plastic can get into the ocean and create lots of problems . It can have a very bad effect on sea life: turtles, fish, and jellyfish, for example. Some animals think the plastic is food, and so they eat it and become sick, Some animals get trapped in the plastic and are hurt. Plastic in our water is also bad for the environment. A lot of plastic pollution is washed onto beaches, which looks horrible. If there wasn't so much plastic pollution, the seas and beaches would be safer for the sea animals and for us, too.

1 - Working in a team

When you take part in a new sport, for example, you can easily make new friends. You might meet new people that you haven't met before. Playing together as a team in a game or a competition is a great experience, and you might make friends for life.

A team works best when everybody takes turns to speak, and takes time to listen to each other. You can learn a lot when you take an interest in other people's ideas. This might even mean that you change your opinion.

2-A new project

Fares is my best friend. Fares had to do a project on the history of flight. He had to make a poster but he couldn't get it right. His friend told him to ask for help, His teacher told him to try again and to make notes on what he read. His mom told him to try his best. His dad told him to stop and think. So Fares asked, he read, and he tried. He planned his ideas and his poster was the best!

School concert a success!

Our school concert was on Saturday. It was amazing! Miss Leila's class put 150 chairs in the school hall and tickets were sold on the school website. Mr Amir's class decorated the hall with flowers. Everyone was very excited. The students played lots of different musical instruments. The choir had many students from different years. The school director gave a presentation. There was a break in the middle of the concert, and some students served cold drinks and cakes.

It was an awesome evening, and everyone went home feeling happy.

Write a paragraph of SEVENTY (70) words about a school concert using the following guiding elements.

" The Ancient Egyptian inventions "

Ideas to help you : Papyrus - ink.

In Ancient Egypt, it was important to write down decisions, record events, and tell stories. For this, people needed paper and ink. Papyrus was a type of thick paper made from reeds. It wasn't as smooth as the paper we use today. It changed how people communicated. The Ancient Egyptians burned wood or oil, and mixed it with water to make ink. Then they used the ink to write on papyrus.

" A solution to a plastic problem "

Ideas to help you: effect - Sealife.

We use plastic in our everyday lives. Plastic can get into the ocean and create lots of problems. It can have a very bad effect on sea life: turtles and fish. Animals sometimes eat plastic or get trapped in it. It also causes pollution on beaches. The Ocean Net is good because it stops plastic from getting into the sea.

" Famous athlete"

Ideas to help you: fitness- motivates.

At the age of 25, Omar was a banker. He was doing well at work, and was enjoying his life. Then he had an accident. He went to the hospital, where the doctors removed part of his leg. Then Omar heard about two disabled athletes, and he wanted to be like them. He started training hard and working on his fitness. Amazingly, he broke a world record in holding his breath underwater. Now, Omar motivates people all around the world.

" Keeping healthy"

Ideas to help you : bacteria - decompose.

Drinking dirty water can cause diseases because dirty water has a lot of bacteria. To prevent yourself from getting sick, wash your hands often and drink clean water. Store fresh food in a refrigerator, or a cool dry place in your kitchen. The food will stay fresh and it won't start to decompose.

Write an email of (70) words to your friend to tell him cheetah. Your email address is eyad@gmail.com. And your friend's email address is amr@gmail.com

Dear Amr, How are you? Have you read about the cheetahs' return? The cheetahs are back! Cheetahs lived in India until the 1950s, but then slowly disappeared. However, eight of them were brought to Kuno National Park. The cheetahs now live in a safe area, and they are fed every day. Also, they are tracked so that they don't get lost. Some people are worried as they will meet leopards and other big cats, but it's important that cheetahs are protected now. Yours, Eyad
